Mission:

To be recognized as a leader in the field of training highly qualified, competitive anesthesiologists-resuscitators.

Duration of study - 3 years

Qualification awarded upon completion of study-doctor anesthetist and resuscitator adults, children.

5. Educational program of the residency «Allergology and immunology (adults, children)»

Mission:

To be recognized as a leader in the training of highly specialized, competitive allergists and immunologists

Duration of study - 2 years

Qualification awarded upon completion of study-doctor allergist - immunologist adults, children.

6.Educational program of the residency «Family Medicine»**Mission:**

To be recognized as a leader in the field of training competitive family medicine doctors.

Duration of study - 2 years

Qualification awarded upon completion of study - family medicine doctor.

7.Educational program of the residency «Therapy»**Mission:**

To be recognized as a leader in the field of training highly qualified, competitive internists.

Duration of study - 2 years

Qualification awarded upon completion of study - doctor-therapist.

8.Educational program of the residency «Pediatric Surgery»**Mission:**

Training of highly qualified competitive specialists of pediatric surgeons for the Southern region and the country as a whole based on the achievements of modern science.

Duration of study - 3 years

Qualification awarded upon completion of study – doctor-children’s surgeon.

9.Educational program of the residency «Neurology (adults, children)»**Mission:**

To be a recognized leader in the training of competitive personnel, meeting the resident physician's need to achieve learning outcomes, providing the health care system and society with highly qualified neurological doctors.

Duration of study - 2 years

Qualification awarded upon completion of study - doctor- neurologist adults, children.

10.Educational program of the residency «Neurosurgery (adults, children)»**Mission:**

To be a recognized leader in the training of competitive personnel, meeting the resident physician's need to achieve learning outcomes, providing the health care system and society with highly qualified neurosurgical physicians

Duration of study - 4 years

Qualification awarded upon completion of study - doctor- neurosurgeon adults, children.

11.Educational program of the residency «Urology and andrology (adults, children)»

Mission:

To be recognized as a leader in the training of highly specialized, competitive urologists and andrologists.

Duration of study: 3 years

Qualification awarded upon completion of study – doctor-urologist and andrologists adults, children.

12.Educational program of the residency «Cardiology (adults, children)»

Mission:

To train competitive personnel, achieve learning outcomes to ensure the healthcare system and society in highly qualified cardiologists.

Duration of study: 3 years

Qualification awarded upon completion of study – doctor-cardiologist adults, children.

13.Educational program of the residency «Rheumatology (adults, children)»

Mission:

To train competitive personnel, achieve learning outcomes to provide the health care system and society with highly qualified rheumatologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-rheumatologist adults, children.

14.Educational program of the residency «Gastroenterology (adults, children)»

Mission:

To train competitive personnel, achieve learning outcomes to ensure the health care system and society in highly qualified gastroenterologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-gastroenterologist adults, children.

15.Educational program of the residency «Endocrinology (adults, children)»

Mission:

To train competitive personnel, achieve learning outcomes to provide the health care system and society with highly qualified endocrinologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-endocrinologist adults, children.

16.Educational program of the residency «Nephrology (adults, children)»

Mission:

Training competitive personnel, achieving learning outcomes to provide the health care system and society with highly qualified nephrologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-nephrologist adults, children.

17.Educational program of the residency «Pediatrics»

Mission:

To be a recognized leader in the training of highly specialized, competitive pediatricians

Duration of study - 2 years

Qualification awarded upon completion of study – doctor-pediatrician.

18.Educational program of the residency «Neonatology»

Mission:

To be a recognized leader in the training of highly specialized, competitive neonatologists

Duration of study - 2 years

Qualification awarded upon completion of study – doctor-neonatologist

19.Educational program of the residency «Oncology (adults)»

Mission:

To be a recognized leader in the training of highly specialized, competitive oncologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-oncologist adults.

20.Educational program of the residency «Radiation Oncology»

Mission:

To be a recognized leader in the field of training highly specialized, competitive radiation oncologists.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-oncologist-radiologist.

21.Educational program of the residency «Traumatology-orthopedics, (adults, children)»

Mission:

To be a recognized leader in the field of training highly specialized, competitive orthopedic traumatologists.

Duration of study: 3 years

Qualification awarded upon completion of study – doctor-traumatologist-orthopedist adults, children.

22.Educational program of the residency «Otorhinolaryngology (adults, children)»

Mission:

To be recognized as a leader in the training of highly specialized, competitive otorhinolaryngologists.

Duration of study: 3 years

Qualification awarded upon completion of study – doctor otorhinolaryngologist adults, children.

23.Educational program of the residency «General surgery»

Mission:

To be a recognized leader in the training of highly specialized, competitive surgeons.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor-surgeon.

24.Educational program of the residency «Radiology»

Mission:

Training of competitive radiologist.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor radiologist.

25.Educational program of the residency «Pulmonology (adults, children)»

Mission:

Training of competitive pulmonologist.

Duration of study: 2 years

Qualification awarded upon completion of study – doctor pulmonologist adults, children.

26.Educational program of the residency «Physical medicine and rehabilitation (adults, children)»

Mission:

To be a recognized leader in the training of competitive personnel, to meet the resident physician's need to achieve learning outcomes, to provide the health care system and society with highly qualified rehabilitation doctors.

Duration of study - 2 years
